INTRODUCTION

Purpose and Scope

This report presents a variety of current and historical data pertaining to Department of Defense (DoD) prime contract awards. Some data reflect fiscal years as early as 1974, providing more than a ten year perspective on Defense procurement.

Seven categories of data on DoD prime contracts are provided. Data are displayed by type of contractor, by procurement program, by method of procurement, and by type of contract pricing provision. Awards publicized to small businesses and awards for research, development, test, and evaluation (RDT&E) are discussed separately, as is the DoD Small Business Subcontracting Program.

Notes on Coverage

Beginning with FY 1983, the dollar threshold for reporting detailed information on procurement actions was raised from over \$10,000 to over \$25,000. While many of the enclosed tables have either column or stub headings of over \$25,000, FY 1982 and prior data figures really represent awards over \$10,000.

The previous first half figures appearing in this publication differ from the originally published figures. This is due to changes received during the second half of the fiscal year for records originally submitted in the first half and represents the most accurate data available for the previous first half.

Amounts in this report are shown for the DoD agency that awards the prime contracts and not the department or agency that budgets for the supplies or services. In addition, data for the Army, Navy, and Air Force include prime contracts awarded on behalf of the National Aeronautics and Space Administration (NASA) and other Federal agencies, as well as for foreign countries whose Defense purchases are

reimbursable. Percentages given in tables may not add due to rounding.

This report includes awards made by Other Defense Agencies (ODA) which are listed in the Glossary. It does not include obligations for "in-house" work performed at military-owned-and-operated establishments such as Navy shipyards, Army arsenals, and Air Force research laboratories, except to the extent that such establishments place contracts for supplies and services with industry or other Federal agencies. The estimated dollar amounts of indefinite-quantity petroleum contracts are included in this report, but the number of individual orders written against these contracts have not been included in the totals for procurement actions.

For definitions of terms used in this publication, see the Glossary.

Highlights

DoD procurement actions during October 1984 through March 1985 totaled \$84,601,207 thousand, as shown below:

<u>Category</u>	<u>Amount</u>
Intragovernmental/FMS	\$ 6,880,695
Work Outside United States	4,212,488
Educational and Nonprofit Institutions	1,842,290
Business Firms Inside United States	<u>71,665,734</u>
	\$84,601,207

Foreign military sales (FMS), a reimbursable portion of intragovernmental orders, totaled \$4,991 million as follows: Army, \$825 million; Navy, \$1,310 million; Air Force, \$2,840 million; Defense Logistics Agency, \$13 million; other Defense agencies, \$2 million; and Civil Functions, \$1 million.

AWARDS BY TYPE OF CONTRACTOR

DoD Procurement by Type of Contractor

DoD procurement awards during the first half of FY 1985 (October 1984 through March 1985) totaled \$84,601 million. This was an increase of \$12,417 million (17.2 percent) over the \$72,184 million awarded during the first half of FY 1984. Contract awards to U.S. businesses for work inside the United States increased by \$9,896 million. Awards to or through other Government Agencies increased by \$1,676 million, awards to educational and nonprofit institutions increased by \$436 million and awards for work outside the United States increased by \$409 million. See Tables 1 and 2.

Procurement Trends

DoD procurement has increased steadily from \$45.8 billion in FY 1975 to \$146.0 billion in FY 1984. The long-term trend in prime contract awards is shown in Table 3.

Small Business Performance

Small businesses received \$10,985 million during the first half of FY 1985, an increase of \$2,175 million over the \$8,810 million for the first half of fiscal year 1984. In terms of net value, small businesses received 15.3 percent of the prime contracts awarded to all business firms for work done in the United States during this period, compared with 14.3 percent for the corresponding period last year.

As shown in Chart 1, 3,452,716 contract actions, or 69.4 percent of the total 4,972,203 actions awarded to business firms, involved small businesses.

AWARDS BY PROCUREMENT PROGRAM

Data on the net value of prime contract awards to businesses in the United States by procurement program are shown in Table 5 for the first half of FY 1984 and the first half of FY 1985, and in Table 6 for FY 1974 through FY 1984. Table 6a provides data on awards by procurement program, according to the Defense component making the awards, for FY 1974 through FY 1984.

Total DoD procurement from US businesses for work performed in the United States during October 1984 through March 1985 totaled \$71,666 million, \$9,896 million (16.0

percent) higher than last year. A comparison of FY 1984 and FY 1985 first half totals shows an increase in all major categories. The largest increases within the procurement programs were in Missile and space systems, \$3,416 million; Ammunition, \$2,090 million; Aircraft engines and related spares, \$1,428 million; and Construction, \$1,021 million.

The only program with a significant decrease was Airframes and related assemblies and spares, \$1,428 million, which was offset by the exact same amount of increase for aircraft engines and related spares.

AWARDS PUBLICIZED TO SMALL BUSINESSES

Table 4 indicates the extent to which the small business community was notified of pending procurement actions and how successful small businesses were in competing for publicized procurements

The types of procurement included in the category "Awards Publicized to Small Businesses" are: (1) proposed procurements which were listed in the Department of Commerce publication *Commerce Business Daily* (CBD); (2) modifications to contracts which were listed in the CBD; (3) formally advertised procurements which were not published in the CBD; and (4) all other procurements on which small firms were specifically requested to submit proposals.

For the most part, procurements which are not publicized to small businesses relate to classified work, goods or services involving an unusual or compelling emergency, modifications of contracts which were not listed in the CBD, and delivery orders under contracts which were not listed in the CBD.

During the first half of FY 1985, 90.2 percent of the total awards to businesses were publicized to small businesses, compared with 83.8 percent during this same period last year. Small businesses did not submit bids on 71.7 percent of these publicized procurements in the first half of FY 1985, compared with 72.7 percent in the first half of FY 1984. They were successful in bidding on 17.0 percent of the publicized total this year and were unsuccessful bidders on 11.2 percent. In this same period last year small businesses bid successfully on 17.0 percent of the publicized total and unsuccessfully on 10.2 percent.

The portion of procurement synopsized during October 1984 through March 1985 amounted to 83.8 percent, as compared to 77.7 percent for the same period last year.

AWARDS FOR RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

The net value and percent distribution of awards for research, development, test, and evaluation (RDT&E), by type of contractor, for FY 1974 through the first half of FY 1985 are shown in Table 7

The total dollar value of RDT&E awards, excluding awards for work outside the United States and orders to other Government agencies, amounted to \$12,227 million during the first half of FY 1985 and accounted for 16.6 percent of all DoD procurement. During the same period last year, the comparable dollar amount was \$10,005 million, which was 15.7 percent of the total awards.

Between FY 1974 and FY 1978, there was an annual increase in the dollar value of RDT&E awards. During FY 1979 RDT&E procurement declined to \$8,481 million but has since increased each year

Although there has been a general upward trend in both total and RDT&E awards since FY 1975, the relative share of RDT&E procurement to total procurement had declined from 17.5 percent in FY 1976 to 11.7 percent in FY 1981, but it increased to 13.8 percent during FY 1982, decreased during FY 1983, and increased to 13.9 percent in FY 1984.

Contract awards for RDT&E by procurement program are shown for FY 1974 through FY 1984 in Table 8. This table shows the percentages of RDT&E awards in each program based on the totals shown in Table 6.

DoD Prime Contract Awards for Research, Development, Test, and Evaluation by Type of Contractor and Defense Component FY 1974-FY 1977A

[illegible]

A For Definitions and Coverage. See Notes on Coverage.
B Includes awards for "Other Defense Agencies".

AWARDS BY METHOD OF PROCUREMENT

Awards by Extent of Competition

Total DoD awards subject to competition during the first half of FY 1985 totaled \$71.453 billion compared to \$61.771 billion during the first half of FY 1984. The following shows the changes in the extent of competition categories for the first half of fiscal years 1985 and 1984.

	(Millions of Dollars)			(Change)	
	1985	1984	Dollars	Percent of Total	
Formally Advertised	\$ 3,552	\$ 2,494	+1,058	+10	
Negotiated Price Competition	21,507	17,628	+3,879	+16	
Design/Technical Competition	9,514	6,035	+3,479	+35	
Follow-On After Price Competition	1,815	2,041	-226	-0.8	
Follow-On After Design/Technical Competition	16,259	18,787	-2,528	-7.6	
Catalog/Market Price	1,091	323	+768	+10	
Non-Competitive	17,726	14,464	+3,262	+14	

Table 9 gives the total for both actions and dollars by reporting component for each of these categories, and Table 10 provides a general indication of the types of items that fall into each competition category.

Formally Advertised and Other Awards

Table 11 shows the dollar volume of procurements placed with small businesses and other contractors through formal advertising and other statutory authority during the first half of FYs 1984 and 1985. During the first half of FY 1985, 46 percent of total procurement was conducted through formal advertising methods, compared to 37 percent last year. Table 12 shows information on these types of awards for FY 1976 through FY 1984.

Statutory Authority

Tables 13, 14, and 15 present data on the types of procurement authority specified in Title 10, Section 2304(a) of the United States Code. The five clauses used most extensively to negotiate contracts during the first half of FY 1985 were: (10) "Impractical to Secure Competition by Formal Advertising," (14) "Technical or Specialized Supplies Requiring Substantial Initial Investment or Extended Period of Preparation for Manufacture," (11) "Experimental, Developmental, Test or Research," (16) "Purchases to Keep Facilities Available in the Interest of National Defense," and (1) "National Emergency."

Small business and labor surplus set-asides totaled \$5.580 million for the first half of this year, representing 7.2 percent of the total, compared with \$4.179 million (6.2 percent) for the first half of last year.

Table 14 shows a total of 5,942,966 procurement actions for the first half of FY 1985, an increase of 414,608 actions over the same period last year. During the first half of this fiscal year, 98.3 percent, or 5,841,988 actions, were for \$25,000 or less, compared to 5,441,907 actions and 98.4 percent for the first half of last year.

Of the 100,978 larger actions (those over \$25,000), 10,772 were for intragovernmental awards. Of the remaining

90,206 actions, 45.0 percent were for new contracts or supplemental awards for additional supplies or services; the remaining 55 percent were delivery orders or modifications such as price redeterminations or incremental funding actions pursuant to the terms of existing contracts. Five negotiation clauses accounted for 74.8 percent of the total number of negotiated contract actions over \$25,000: (10) "Impractical to Secure Competition by Formal Advertising," 39.6 percent; (1) "National Emergency," 17.4 percent; (11) "Experimental Developmental Test, or Research," 7.4 percent; (6) "Purchases Outside the United States," 6.1 percent; and (9) "Perishable or Non-Perishable Subsistence," 4.3 percent.

AWARDS BY TYPE OF CONTRACT PRICING PROVISION

Table 16 shows the net value and percent distribution of DoD prime contract awards over \$25,000 for the first half of FY 1984 and the first half of FY 1985. Data are shown by type of contract pricing provision, according to Defense component. Table 17 provides annual data for fiscal years 1976 through 1984.

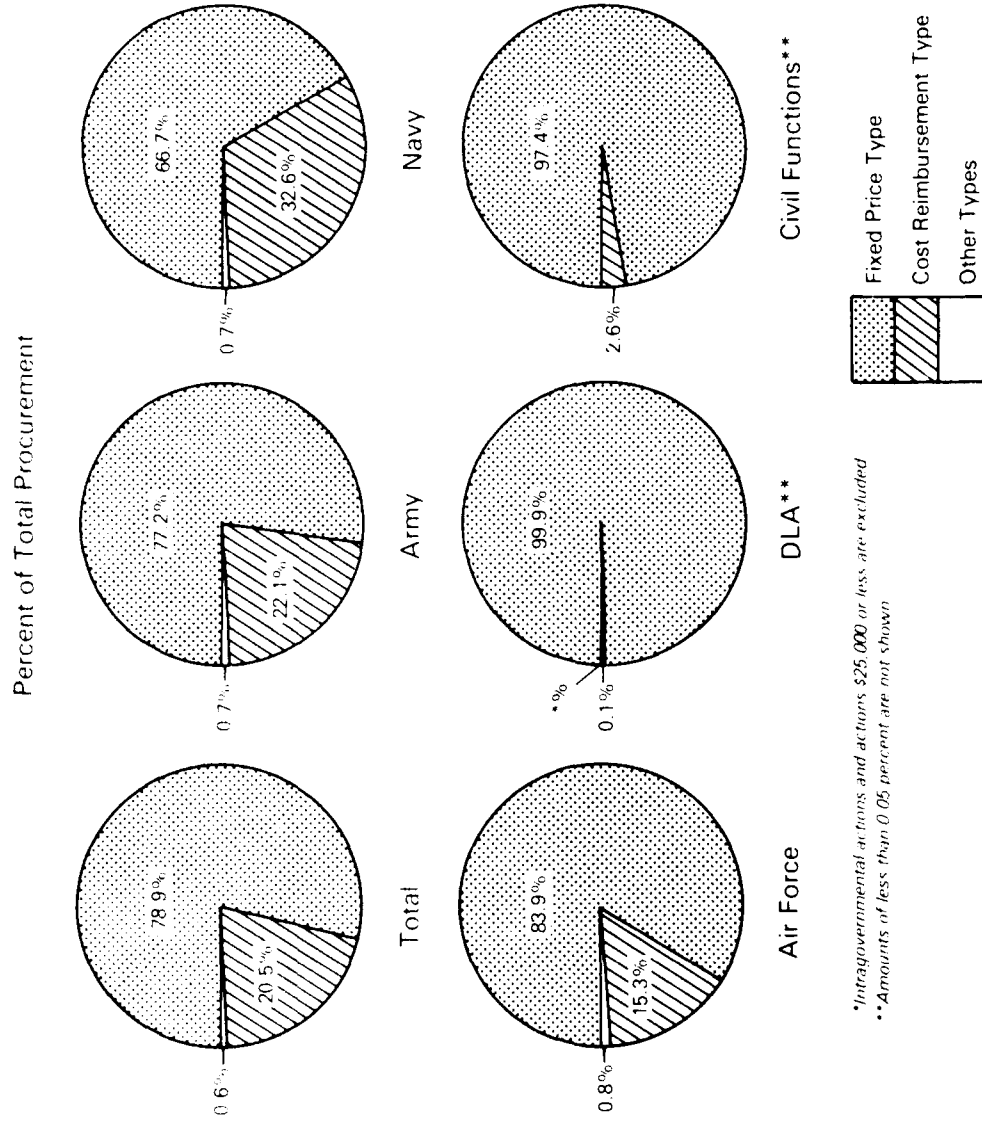

During the first half of FY 1985 awards over \$25,000 (excluding intragovernmental awards) totaled \$72,967 million, of which \$57,537 million, or 78.9 percent, was awarded under fixed price procedures and \$14,935 million, or 20.5 percent, under cost reimbursement procedures. Other types (time and materials and labor hours) accounted for \$495 million, or 0.7 percent.

Cost-plus-fixed-fee (CPFF) contracts accounted for 8.7 percent of the total contract awards over \$25,000 in the first

half of FY 1985. The use of incentive contracts (both fixed and cost-types combined) decreased from 28.0 percent of total contract dollars in the first half of FY 1984 to 26.2 percent in the first half of FY 1985. The use of firm fixed-price contracts increased from 40.4 percent to 42.5 percent.

The total of 90,206 contract actions over \$25,000 for the first half of 1985 (see Table 16) includes 40,662 original contract actions and modifications calling for additional work and 49,544 actions representing delivery orders and modifications made pursuant to the terms of existing contracts. Actions for new work increased by 24.4 percent and actions representing delivery orders and modifications pursuant to the terms of the original contract increased by 13.8 percent.

Chart V
Percent Distribution of DOD Prime Contract Awards by Contract Pricing
Provision, According to Defense Component: First Half FY 1985

*Intragovernmental actions and actions \$25,000 or less are excluded

**Amounts of less than 0.05 percent are not shown

DOD SMALL BUSINESS SUBCONTRACTING PROGRAM

Commitments for DoD small business subcontracting work by 1208 reporting large contractors totaled \$ 47,582 million in FY 1984 which was a 19.6 percent increase from the \$ 39,796 million reported by 1173 large contractors in FY 1983

Small businesses received 37.7 percent of the total committed for subcontracting work during FY 1984, compared with 39.2 percent for FY 1983. Comparative data for FY 1975 through FY 1984 are given below

(Amounts in Millions)

	1975	1976	1977	1978	1979	1980	1981	1982	1983	1984

GLOSSARY OF TERMS

Businesses. Businesses are companies, individuals, or partnerships organized for profit, including small businesses as defined below

Civil Functions. Functions primarily associated with the Civil Works program of the Army Corps of Engineers. This program encompasses planning, programming, designing, constructing, and operating Federal Water resource projects for navigation, flood control, hydroelectric power production, water supply, recreation, and related activities. Also included are cemeterial work and conservation management

Defense Logistics Agency. The Defense Supply Agency (DSA) was established on January 1, 1962, to manage, procure, and distribute certain common supplies, activities which had previously been the responsibility of the individual military departments. The agency name was changed on January 1, 1977, to the Defense Logistics Agency (DLA)

Educational and Nonprofit Institutions. Any corporation, foundation, trust, or institution operating on a not-for-profit basis. Included are educational and scientific institutions, hospitals of a nonprofit nature, and state, local, and other non-Federal government agencies. If the work of these institutions meets the criteria of the category "Work Outside the United States" (see below), it is included in the data for that category

Intragovernmental Order. Orders written by a military department or Defense agency purchasing office requesting that a non-Defense Federal agency furnish supplies or services from its stocks in-house manufacturing facilities, or contracts

Location of Work. The place where an item is to be manufactured, assembled, or otherwise supplied by the prime contractor, or the place where the service is to be performed or the site of a construction project

Military Functions. Activities normally associated with the support of the armed forces

Net Value. The net amount of debit and credit procurement actions recorded during the period

Other Defense Agencies

American Forces Radio & Television Service
 Defense Audio Visual Agency
 Defense Communications Office
 Defense Communications Agency
 Defense Mapping Agency
 Defense Nuclear Agency
 Defense Supply Service, Washington
 National Security Agency
 Office for the Civilian Health & Medical Program of the
 Uniformed Services University of Health Services

Prime Contract Award. A legally binding agreement executed by a department of an agency of DoD to obtain supplies, services, or construction

Procurement Action. An action involving the obligation or deobligation of funds which officially awards or changes a prime contract. This may include the award of a new prime contract, a debit or credit change to an existing prime contract, or an order written against an indefinite delivery-type contract or basic ordering agreement.

Small Businesses. A small business is defined by the Small Business Administration in the Federal Register (Title 13, Chapter 1, Part 121). The definition also appears in the Federal Acquisition Regulation (19.101). Generally, a small business is one that is independently owned and operated, is not dominant in its field of operations, and with its affiliates does not employ more than a specified number of employees (usually not more than 500, 750, or 1,000, depending on the type of product called for by the contract). For construction and some service industries, the criterion is a specified annual dollar volume of sales or receipts, rather than the number of employees.

Subcontract Commitment. A legal agreement between contractors establishing the value of goods and services

required to fulfill a contract. The goods or services are provided by one contractor (called the subcontractor) to the contractor with the major or prime contract.

Subcontract Payment. A cash payment made by one contractor to another for supplies, services, or construction required by a prime contract.

United States. The 50 states and the District of Columbia, U.S. possessions, the Commonwealth of Puerto Rico, the Trust Territories of the Pacific, and other areas subject to complete U.S. sovereignty.

Work Inside the United States. An award to a U.S. or foreign business, an educational or nonprofit institution, or a Government agency with a place of performance inside the United States (see above).

Work Outside the United States. An award to a U.S. or foreign business, an educational or nonprofit institution, or a Government agency with a place of performance outside of the United States (see above).
